

Things to do before the demo | 24th July, 2017

- Documentation
 - Send sample to the group
 - Diagrams, architecture
 - *User manual
 - Planning
- Implementation
 - Client/Server on one computer for this demo
 - Different computers for Demo 3
 - Demo Database
 - Cost wise answers should be answered – training his staff to use the db
 - Mention nice to haves – mobile
 - Machine learning after speaking with Moseli
 - The system may learn at a very slow pace – ML
- Testing Framework(s): Jmeter & Junit
- Front end

Moseli

- He'll have a look at it, and will be at the demo on Friday, just so we can see what we have to more detail

Tomorrow

- Know how to Integrate everything | Daniel, Heinrich
- Front-end | Joseph
- Diagrams and Architecture | Joseph, Eunice, Tim
- Burndown chart | Tim, Eunice & Joseph
- Team Page
-
