

Code X – Summary To-Do List Toward Project Day

EVERYONE, READ THE ENTIRE DOCUMENT!

Admin:

- Email Emilio regarding prizes (Eunice)
- Prizes we plan on bidding for - Innovation, Architectural Awareness, Algorithmic Innovation*, Software Engineering Excellence* - bids due **Oct 6**
- Team landing page descriptions (everyone) - aim to be done by the end of the week – **October 6**
- Add page on Github for the description summaries & Project bidding summary suggestions – (Tim?)
- Video (everyone – but Heinrich and Tim in charge) – one for project day, which will be trimmed for virtual demo and project day. Deadline...?
- In addition to the above, add appreciation to Zizo and Reroute in the video (not excessive)
- Possible resources to request
 - From CS Dept - table, 2/3 monitors, keyboards, CPUs, presentation board
 - From Team – table cloth, our laptops, posters?
- Dress code – Formal shirts OR Tim test out his suggestion on the shirts
- Talks with Mr. Mostert – Live demo, more data etc. (Heinrich and Jocelyn)
- Send Kevin a message (I think it was regarding Glassfish of something?)

The Project:

- Front-end – Add extra page to link to login page (Jocelyn)
- Implement login (Jocelyn?)
- Extra GUI (Jocelyn, Eunice can assist)
- Code for “Edit Dictionary”/Menu (Someone?)
- Testing – Jmeter on Old System (Not sure who spoke about this, I think Daniel?)
- Get both systems on at least 2 laptops – do ASAP, **whoever’s laptop will be available**/Glassfish talk as above
- Jocelyn mentioned being done tomorrow regarding some GUI stuff? (please confirm)

Documentation:

- Coding Standards (Eunice) – Jocelyn, Daniel – please upload all code. Will speak to H, J and D regarding standards used etc.
- User Manual (I'd say everyone still contribute, but with sections divided as required, depending on other loads. i.e. members coding can add minor additions, compared to those who aren't, etc.) – add everything Stacey said we are to leave out i.e. the developer side, adding new GUI additions etc.
- Testing document (Daniel? Eunice can/will assist) – not sure regarding tests happening... maybe Daniel can fill us in.
- If there's time, final run through of SRS documentation (Eunice)

Other:

- Team Demo – next week
- Everyone check out Presentation application Heinrich suggested
