Things to work on by Project day:

- Try compile version for ID search

- **Spellchecker*** - Joseph

- **Front**-**end** - ask Mr Mostert

- **Testing** - Comparison (benchmark) tests: help needed, new features etc - Daniel*

- **User Manual**

 * Research - admin, normal users

- **Presentation**

 * Both systems need to work on a system

 * Install whole system on at least on 2 computers - ask Mr. Mostert if it's ok to have DB on Heinrich's computer (Heinrich)

- **Addition to documentation** - Coding Standards Document

- **Things for Project day**

 * Dress Code

 * Banners etc
