Code X Meeting - July 17, 2017

To Do

* Finding a common ground = search + database redefining

* Contact Moseli on the machine learning aspect, so we can implement it

* Client server thing

* Architecture - REST architecture

* We need to design something and show a plan

This week:

- architecture

- diagrams

- architecture design

- speak to the Master's student about the ML stuff

Between now and Wednesday:

- send email for Thursday - Eunice

- contact Moseli - Eunice

- architecture designs and diagrams - Eunice + Tim (client server, rest architecture, cloud)

- Linking java and db (zizo) - Daniel

- Continuing with DB - Heinrch (zizo) + Jocelyn (reddis)
